LUME

Who doesn't love the look of natural stone in a beautiful modern bathroom or kitchen?

Lume captures the essence of natural stone mosaic on a scored base, offering all the benefits of ceramic without the drawbacks of the natural material.

Lume comes on a 30 x 30cm tile and is available in four different score formats, creating a completely seamless look when grouted.
The 27 different faces in each design ensure a natural stone look with virtually no repeats.

With a range of stones from mellow neutrals to statement-makers, Lume has a design to capture every heart.

Fingers Diamond White (Satin Matt) HCC4Q-117

LUME PRODUCT FACTS:

- Suitable for kitchen, bathroom, laundry and other indoor walls
- No sealing required
- 4 formats - Kit Kat, Fingers, Brick and Subway
- 12 colours available in satin matt and gloss finishes
- Colour variation - V3 (moderate variation)
- Product faces - 27
- Size - 300mm x 300mm (rectified)
- 9 tiles per box / 0.81m^2 per box
- Easy and economical to install
- Australian designed and made

Photographs or illustrations should be used as a guide only.
To ensure accurate selection, please order a tile sample from your local tile store or email customersupport@scceramics.com

KIT KAT FORMAT

TILE SIZE: 300 x 300mm
SCORED TO: 100 x 14mm RECTANGLES

Ask anyone in the interior design world what the hottest trend in tiles is right now and the answer has gotta be “Kit Kats”

These little guys have their roots way back in Japanese glazed mosaics and the look is on point.

Kit Kat Pegasus Cream (Satin Matt) HCB4P-117

FINGERS FORMAT

TILE SIZE: 300 x 300mm
SCORED TO: 150 x 25mm RECTANGLES

The proportions of Lume's fingers format is sublimely elegant creating a look that is equally at home in a modern or classic setting.

Fingers format has plenty of interest but without the intensity of Kit Kats.

Fingers Pegasus Cream (Satin Matt) HCB4Q-117

BRICK FORMAT

TILE SIZE: 300 x 300mm
SCORED TO: 150 x 50mm RECTANGLES

Every Lume format has a surprisingly different vibe and the bricks format is no exception. The three to one ratio is styled after the traditional Moroccan bejmat shape and the look is so stylish.

Brick Pegasus Cream (Satin Matt) HCB4R-117

SUBWAY FORMAT

TILE SIZE: 300 x 300mm
SCORED TO: 300 x 75mm RECTANGLES

Lume subway format is the grownup of the family with its clean and minimal lines. The subway really allows the character of the stone to shine.

TILE CARE AND MAINTENANCE – FOR THE TILER AND CUSTOMER

This important information will help keep your tiles looking their best for many years to come. Correct installation, regular inspections and maintenance are the best ways to keep your tiles in good condition. Tiles must be installed in line with Australian standards. No claims will be recognised if tiling is not done in accordance with Australian standards.

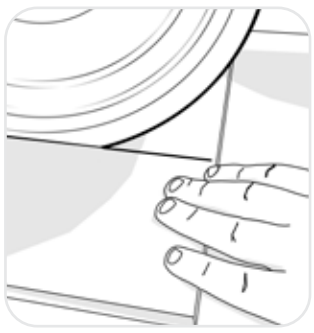
PRIOR TO INSTALLATION

- Check that the product and quantities are correct.
- Conduct a test run or 'dry lay' with your installer to determine where cuts will need to be made.
  Note: Installation of the product constitutes full acceptance.
- Lay out the tiles on a flat surface before fixing.
  Break up any light or dark groupings to give an even result.
- It is recommended that the designer/homeowner approves the layout at this stage as installation of the product constitutes full acceptance and no claims will be recognised.

INSTALLING YOUR TILES – RECOMMENDED METHOD

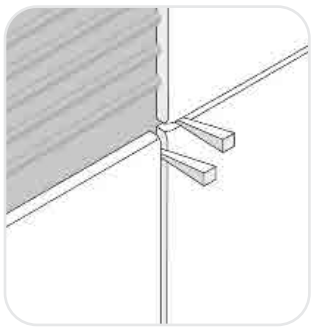
Cutting - Wet Saw

- Mark the line to be cut.
- Cut along the line using the wet saw fitted with a continuous rim blade in good condition.
- Cut using multiple passes at increasing depths; the first cut pass should be a shallow one.
- Once all tiles are cut to size, they are ready to be used.



Spacing

- Use either cross and 'T' spacers or wedges to achieve consistent spacing.



Setting

- Once the tiles are set in place, apply a straight edge to the tiled area to ensure the surface is flat and to avoid any lipping.

Grout Selection / Installation

- Use a good quality cement based, non sanded grout to ensure a scratch free installation.
- When grouting slip resistant tiles, wash the grout off before it dries to ensure the slip resistant micropores are not impaired.

Grout Final Wash

- Wipe with a soft, dry towel.
- DO NOT use acid or detergent based cleaners on your tiles.
- Ceramic and porcelain tiles do not need to be sealed. Always seal natural stone and cement tiles.
- We recommend using PH neutral tile cleaners or warm water mixed with white vinegar; four parts water to one part vinegar. Tiles can be cleaned with a steam mop.
- For a deep clean, use a soft bristle broom with a PH neutral tile cleaner.

MAINTAINING YOUR TILES

- Regular inspection is the best way to keep your tiles in good condition.
- DO NOT use acid or detergent based cleaners on your tiles.
- Ceramic and porcelain tiles do not need to be sealed. Always seal natural stone and cement tiles.
- We recommend using PH neutral tile cleaners or warm water mixed with white vinegar; four parts water to one part vinegar.
- Tiles can be cleaned with a steam mop.
- For a deep clean, use a soft bristle broom with a PH neutral tile cleaner.

GROUT CONSIDERATIONS

All Lume formats come ungrouted and the choice of grout colour will effect the final appearance.

Opting for a grout colour that is darker or lighter than the tile colour will highlight the individual pieces in the tile design, while choosing a grout colour closely matching the tile colour will create a more uniform look.
