### Installation

- To cut Rhapsody tiles, we recommend a wet saw fitted with a continuous rim diamond blade.
- To achieve a balanced and even look, check the shading, blending and consistency of your tile layout before installing.
- We strongly recommend engaging a certified tiler for the installation of our products to ensure the highest quality outcome.
- All installers working with SCC products are required to adhere to Australian Standards AS3958.1-2007 for proper installation procedures.

### Care and Maintenance

- DO NOT clean Rhapsody tiles with strong acid or abrasive cleaners.
- We recommend using a soft sponge or cloth with kitchen spray, PH-neutral tile cleaner, or white vinegar diluted with four parts warm water.

**Please ensure accurate quantities are ordered from the outset as shade variation is a feature of all ceramic products and consistency is not guaranteed from batch to batch.**
